

12th Topical Seminar on Innovative Particle and Radiation Detectors 7 - 10 June 2010 Siena, Italy IPRD10

Società Italiana di Fisica
Bologna - Italia

FLN 10 June 2010

Thanks to:

- Univ. of Siena for the hospitality
- Servizio Congressi of the Univ. (**Farida Pizzuto**, Giuliana Pasquini, Elisa Pratali, **Maria Chiara**, **Giuditta**)
- Santa Chiara staff (Chiara Roscino) and catering staff (lunches & coffees & teas)
- **Ristorante Alla Speranza**: dinner
- Marco Grilli (SC, Univ. Siena) and again Maria Chiara for the technical help
- (again) our sponsors: INFN, Univ. of Siena, Univ. of Bologna, SIF, CAEN, Hamamatsu
- participants/speakers/chairpersons/participating industries

Last technical details

- **Presentations**: the plan is to post on the conference Web site the files in pdf to be done
- **Proceedings**: e-mail; if large, the best is to make available the file with the manuscript on the Web or as public afs to be done
- **Deadline** for proceedings: 31 July 2010 ($\approx \frac{1}{2}$ year after the LHC start-up)
- Remember: correct e-/s-addresses are relevant for information exchanges
- Negotiations (if any) with kaos@bo.infn.it

Last

- Farewell to the next time/edition, perhaps in 1 1/2 years from now (October 2011???)
 - in fact one should avoid carefully *2012/12/12*
- the end ..., but in the meantime...
- ... the LHC will open a new window on the horizon of (particle) physics
